

# Water Quality Goal

Protect and improve surface and ground water in the Indian Creek Watershed

## Objectives

## Results from Open Houses

1 Encourage & implement practices to reduce nutrient export (e.g. fertilizer runoff) from the Indian Creek Watershed	28
2 Encourage & implement stormwater management practices to hold water from a 2.5 inch or less rain event	25
3 Encourage & implement practices to reduce <i>E.coli</i> bacteria in the creeks	5
4 Encourage policies & practices to protect drinking water sources	9
