

Water Quality and Wildlife Tour

Can You Get Water Quality and Wildlife Habitat Benefits in One Practice?

Monday, June 21st, 2021

9:30 a.m. – about 11:00 a.m. (drinks and donuts provided)

*****There is no charge to attend this outdoor, educational event*****

Location: Curt Zingula's property, (rural) Central City – outside only

Directions: Just east of 1777 Indian Bridge Rd, Central City, IA. Off Hwy 13, take Indian Bridge Rd east about a mile and you should see us. We will be parking alongside the road. Could also type "42.13773, -91.53203" into your cell phone mapping app search box.

SPEAKERS AND STAFF FROM:

- Linn County, Pheasants Forever, NRCS, Coe College, and ISU Extension

TOPICS INCLUDE:

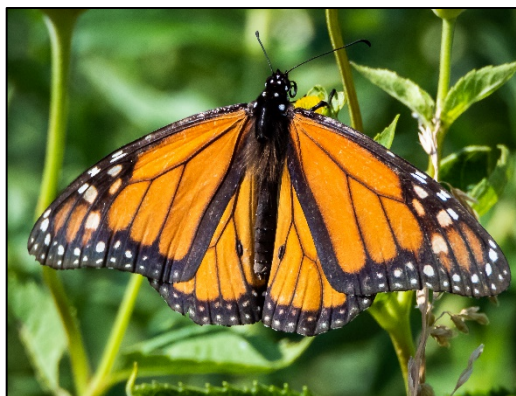

- Nutrient Reduction and Water Monitoring
- Saturated Buffers
- Cover Crops
- Prairie Strips
- Value of Native Forbs/Wildflowers
- Quality Bird Habitat
- Management of Native Cover
- Rainfall Simulator

Come ready to join us for a morning full of valuable information, the opportunity to learn about reducing your nutrients to our water sources while also adding wildlife habitat. Experience first-hand some of the different practices available to help better your land.

*****Bring a hat, sun block, & bug spray*****
